

INVITATION SEMINAR

Dear friends,

Every two years, Cologne becomes the global centre of sports, playground, swimming pool and leisure facilities. At the leading international trade fair FSB, upcoming trends are brought to life, momentum is generated for the industry, new products and ideas are presented to a large trade audience and the most important business deals and contacts of the year are made.

This year, the FSB will take place from 7 - 10 November. The Pulastic team would like to welcome you in hall 10.2 - booth F041 and also invite you to a seminar with the subject 'acoustics'.

Acoustics

Pulastic sports flooring has a cooperation with **CDM**, a world leading specialist in noise and vibration solutions. With this cooperation we are able to offer Pulastic sports floor solutions with outstanding acoustical performance.

Over the years we have seen a vast increase in inquiries for acoustical solutions. The nuisance coming from noise producing spaces (like sports halls, squash courts and gym areas) were to be isolated in order to protect adjacent noise sensitive spaces (like a library and/or classroom). We at Pulastic have taken on this challenge by helping our customers in a multi-disciplinary way. In our experience this has resulted in higher customer satisfaction levels and it has boosted the distinctive character of our flooring solutions to date.

To get you up to speed with the subject acoustics in general and the solutions we are able to offer we have developed a special FSB seminar. This seminar is considered to be a knowledge booster and easy to digest.

Who: Pulastic sports flooring - Raimond Ubing
CDM - Paulo Pinto, Patrick Carels
